

## ABOUT THE JOURNAL

### 1. Scope

ISME/GLOMIS EJ (ISSN 1880-7682) is a peer-reviewed on-line journal managed by the International Society for Mangrove Ecosystems (ISME), and is dedicated to inform mangrove scientists and the public on scientific knowledge and issues related to mangrove ecosystems. The journal welcomes manuscripts reporting original fundamental or applied research on mangrove biology, ecology, physiology, hydrology, chemistry, geography, forestry, fisheries, socio-economy, management, conservation, rehabilitation and utilization. Manuscripts on mangrove-related environmental issues such as climate change, sea-level rise, biodiversity, coastal erosion, pollution and sedimentation are also welcome.
